

**Instructions**  
**of the Director General of the Customs Authority No. (70) for the year 2021**

Withing the framework of the follow-up of the work performance at logistical centers that operate under the national single window system, operation under the Advance Cargo Information system “ACI” in sea ports and our keenness to promptly finalize the transactions related to this system.

**It should be alerted on** all those dealing with the Advance Cargo Information system “ACI” to commit to what has been stipulated in the provisions of Article 198 paragraph “s” of the Executive Regulations of the Customs Law promulgated by the decree of the Minister of Finance No.430 for the year 2021 which provided for that **“the data of the commercial invoice shall be sent electronically indicating therein the contents of the shipment in terms of items’ data including the global code number for each item (standard numbering system GS1 or any other standard global numbering system). In case of absence of a global code number (GS1) for any item, the part number shall be determined according to the nature of the inbound item.”**

**These instructions shall be minutely implemented to avoid being held responsible.**

**Director General of the Customs Authority**
